

Providers Keeping Arizona Kids Strong

changes to federal funding will impact where kids get shots

<p>1. Uninsured 2. Native American 3. Medicaid</p>	<p>Underinsured children*</p>	<p>Kids with private insurance</p>	<p>Kids with private insurance with deductibles</p>	<p>Birth dose of Hepatitis B</p>
<p>No change in funding for these groups. Continue use of state provided Vaccines For Children vaccines.</p>	<p>Health plan does not cover one or more recommended vaccines or has a cap.</p>	<p>Cannot receive state-supplied vaccine at public health clinics, including county health dept.</p>	<p>Cannot receive state-supplied vaccine at public health clinics, including county health dept.</p>	<p>Needs to be given in first 72 hours of life.</p>
<p>Immunize in private offices, public clinics and community health centers.</p>	<p>All providers can continue use of state supplied vaccine in office until Federal funding runs out.</p>	<p>Privately-insured includes kids with a high deductible.</p>	<p>Patients are privately insured and must pay out-of-pocket or use a health savings/flexible spending account .</p>	<p>Some hospitals will continue birth dose; others will not due to funding changes.</p>
<p>Contact AHCCCS with eligibility questions 602-417-7200</p>	<p>Funding is expected to last until Spring 2013. Look for notification from ADHS when to stop using state-supplied vaccine.</p>	<p>Should receive privately-ordered vaccine from Dr. office, retail clinic or community health center.</p>	<p>Should receive privately-ordered vaccine from Dr. office, retail clinic or community health center.</p>	<p>Contact local birthing hospitals to find out their policy.</p>
<p>Contact Arizona VFC with questions 602-364-3642</p>	<p>If provider not able to immunize, refer underinsured kids to county health depts or Community Health Centers.</p>	<p>Health depts. will be referring privately insured kids back to medical home.</p>	<p>Health depts .will be referring privately insured kids back to medical home.</p>	<p>Schedule newborn checks within 72 hours of birth.</p>
