

Need help responding to vaccine-hesitant parents?

Science-based materials are available from these respected organizations

American Academy of Pediatrics (AAP)

Healthcare providers can find numerous resources on the AAP's website to help with parents and caregivers who have questions about vaccinating their child at www2.aap.org/immunization/families/deciding.html. When parents cannot be convinced, consider using AAP's Refusal to Vaccinate form at www2.aap.org/immunization/pediatricians/pdf/RefusaltoVaccinate.pdf.

California Immunization Coalition

The California Immunization Coalition (CIC) has developed several excellent provider pieces that discuss common questions many parents may have regarding vaccines for their children. These include

- "Responding to Parents' Top 10 Concerns" www.cdph.ca.gov/programs/immunize/Documents/IMM-917.pdf
- "Talking with Parents About Vaccine Safety" www.cdph.ca.gov/programs/immunize/Documents/IMM-915.pdf
- "Alternate Vaccine Schedules: Helping Parents Separate Fact From Fear" <http://eziz.org/assets/docs/IMM-988.pdf>

Centers for Disease Control and Prevention (CDC)

Among CDC's many online immunization resources is the "Parent's Guide to Childhood Immunization," a 64-page booklet that can be ordered or printed at www.cdc.gov/vaccines/pubs/parents-guide. In addition, visit CDC's "Provider Resources for Vaccine Conversations with Parents" web section at www.cdc.gov/vaccines/hcp/patient-ed/conversations/index.html

Other CDC materials, designed to help healthcare providers work with hesitant parents, include the following:

- "If You Choose Not to Vaccinate Your Child, Understand the Risks and Responsibilities" www.cdc.gov/vaccines/hcp/patient-ed/conversations/downloads/not-vacc-risks-color-office.pdf
- "Infant Immunizations FAQs" www.cdc.gov/vaccines/parents/parent-questions.html
- "Talking with Parents about Vaccines for Infants" www.cdc.gov/vaccines/hcp/patient-ed/conversations/downloads/talk-infants-color-office.pdf

Every Child by Two (ECBT)

Created by Every Child by Two, www.vaccinateyourbaby.org focuses on answering parents' commonly asked questions about vaccines. It features video clips and links to current vaccine news stories.

Immunization Action Coalition (IAC)

IAC's Talking about Vaccines web section provides healthcare professionals with top vaccination resources from trusted sources such as CDC, AAP, IAC, VEC, and many more. Visit www.immunize.org/concerns. Refer parents to IAC's website for the public at www.vaccineinformation.org

IAC has developed several patient handouts for vaccine-hesitant parents. These include:

- "Clear Answers & Smart Advice About Your Baby's Shots," an excerpt

from the popular book "Baby 411" by Dr. Ari Brown. www.immunize.org/catg.d/p2068.pdf

- "Decision to Not Vaccinate My Child" www.immunize.org/catg.d/p4059.pdf
- "Reliable Sources of Immunization Information: Where to go to find answers!" www.immunize.org/catg.d/p4012.pdf
- "Vaccines Work!" www.immunize.org/catg.d/p4037.pdf

Institute for Vaccine Safety, Johns Hopkins University

The Institute for Vaccine Safety collects vaccine-specific safety information. Of particular interest is its "Components of Vaccines" section, which contains tables specifying the contents of various vaccines: www.vaccinesafety.edu/components.htm.

Vaccine Education Center (VEC) Children's Hospital of Philadelphia

VEC offers handouts in English and Spanish as well as four colorful booklets covering immunization of infants, teens, and adults, as well as one about vaccine safety. These educational materials can be downloaded at www.chop.edu/service/vaccine-education-center/order-educational-materials/order-educational-materials.html. VEC has developed a number of patient handouts covering vaccine topics of interest. These include the following

- "Too Many Vaccines? What you should know" at: www.chop.edu/export/download/pdfs/articles/vaccine-education-center/too-many-vaccines.pdf
- "Vaccine Ingredients: What you should know" at: www.chop.edu/export/download/pdfs/articles/vaccine-education-center/vaccine-ingredients.pdf

For parents with concerns about vaccines and autism

AAP has issued a statement that can be printed at www2.aap.org/advocacy/releases/autismparentfacts.htm. Parents may wish to investigate further at www.healthychildren.org/English/health-issues/conditions/developmental-disabilities/Pages/Autism-Spectrum-Disorders.aspx. IAC also recommends these books:

- *Autism's False Prophets: Bad Science, Risky Medicine, and the Search for a Cure*, by Paul A. Offit, MD
- *Unstrange Minds: Remapping the World of Autism*, by Roy Richard Grinker, PhD

And, here are three well-researched handouts from IAC and one from VEC:

- "MMR Vaccine Does Not Cause Autism: Examine the Evidence!" www.immunize.org/catg.d/p4026.pdf
- "Evidence shows vaccines unrelated to autism" www.immunize.org/catg.d/p4028.pdf
- "Vaccines and Autism: What you should know" www.chop.edu/export/download/pdfs/articles/vaccine-education-center/autism.pdf
